# LIVE BRIEFS PRO GLOBAL MARKETS

MT Newswires, a division of MidnightTrader, Inc., is a leading source of multi-asset class news and analysis of developed capital markets and economies globally. MT Newswires provides premium, around the clock coverage of equities, fixed-income, economic events, commodity and foreign exchange markets in the US, Canada, Europe and Asia. Reports are designed to give the reader a quick and precise picture of major events, while highlighting both the immediate impact on the markets and underlying securities as well as the longer run implications for the economy and central bank policy.

*The **Live Briefs PRO Global Markets** service is designed to keep our clients informed of market moving events around the globe.*

## **The Economy**

Live Briefs PRO Global Markets includes in-depth analysis of all relevant economic data releases in the US, Canada, Europe, Asia, Australia and the Middle-East. Along with economist forecasts, we offer incisive previews of upcoming releases, followed by timely reviews of the numbers. Our analysts, working with economists, highlight both the immediate impact on the markets as well as the longer run implications for the global economy and interest rates. With a combined 80 years covering global economies and markets The economics team consists of trained economists with market experience, including former members of the IMF, Federal Reserve and the Commerce Department.

## **Equities**

In addition to complete coverage of public companies in the US and Canada, **Live Briefs PRO Global Markets** includes coverage of FTSE 350 companies and global blue chips. Outside of the UK, regular updates on equity markets in all of Europe, Asia and the Middle-East are provided.

### **The Forex and Fixed-Income Markets**

Our foreign exchange, fixed income and commodities coverage provides up to the minute insight into forces impacting these markets. Using an extensive list of market contacts, flow information is reported rapidly to keep traders one step ahead of the herd. Market analysts also tap into the cross-market relationships between bonds, currencies, equities, and commodities, providing our readers with a complete trading picture.

### **A Unique Global Perspective**

The MT Newswires' style and philosophy are different from other publications. We are a forward looking, original and independent business media firm. Our unique market analysis taps into the cross-market relationships between bonds, currencies, equities, and commodities, providing our readers with the complete picture. If it matters in our world we cover it – and cover it well.

### **The Team**

MT Newswires is fortunate to have long term relationships with some of the most experienced and respected financial journalists and economists in business media. Becoming a member of our global newsroom is a very competitive and highly selective process as we have no geographic limitations on finding the very best talent, regardless of location.
